## Employees And Families Are Guests At Annual Christmas Party Of Furniture Factories

The employees of the three Gettysburg furniture companies, their wives and children were guests Wednesday evening at the annual Christmas party held for the organizations with M. C. Jones, general manager, as host.

More than 300 filled the display rooms of the furniture companies for the annual event. Santa Claus distributed gifts, oranges and candy. Movies were shown, refreshments were served and entertainment was furnished by the Gettysburg high school band.

Santa was in high glee for the festivities, and so were the children and their parents.

The movies included such numbers as a new cartoon on the traditional Moore poem of "A Visit from St. Nicholas," "A Christmas Fantasy," "A Holiday Dream" and a color film, "The Littlest Angel" which delighted both the children and adults.

**Huge Xmas Tree**  
A huge Christmas tree was the principal decoration in the large display room of the show rooms and Santa, who was seated between the tree and the gift table, was kept busy throughout most of the evening by youngsters who would "sneak" back every now and then to tell Santa of some favorite wish they had for Christmas, or just to have a talk about whatever their imaginations could conjure.

Toward the end of the party the entire group gathered for the annual furniture factory family picture, which will be enlarged and placed with similar pictures taken in previous years, thus giving proud fathers a chance to show how their youngsters are growing up, from year to year.

Edwin Longenecker led the Gettysburg high school band through a program of 19 numbers during the course of the evening, including three numbers in which the drum majorettes took part and a selection by a girls' trio comprising Doris Miller, Jean Mountain and Barbara Swisher.

**Majorettes Perform**  
Other selections included "Hutchinson Field," "Washington Post March," "Harvest Home," "Fantasy," "Home," "Gold and Silver," "Forward," "Humoresque," "White Christmas," "Jalousie," "Dinah," "National Honor," "Jupiter," "Christmas Overture," "Mutual," "Santa Claus Is Coming to Town," "Ting-A-Ling" and "Stars and Stripes."

Sixteen drum majorettes presented dance numbers during the playing of "Jalousie," "Dinah" and "National Honor" and Ted Hay was featured with his trumpet playing in the presentation of "Jupiter."

Among the drum majorettes were Barbara Shearer, head majorette, Betty Miller, Doris Hand, Ann McClear, Gloria Bieseker, Joan Healey, Barbara Sadler, Sara Scott, Dolores Frew, Ann Tauginbaugh, Joan Sanders, Joyce Sanders, Gwen

## ADAMS BANKERS HEAR TALK ON FEDERAL TAXES

Changes in the tax and social security laws were outlined by Thomas C. McSherry, local Internal Revenue department agent, Wednesday evening at the regular meeting of the Adams County Bankers' association held at the Peace Light Inn.

McSherry outlined the conditions under which self-employed persons, farm labor, domestic household help, employees of non-profit organizations and state and local governments are eligible for inclusion under the social security act.

He gave a brief history of federal taxation legislation starting with the national federal revenue act of 1791 and then discussed informally with the bankers a number of changes in the tax laws passed in October.

The first income tax law was signed March 1, 1913, he noted in the course of his talk. A number of income tax laws had been passed and found unconstitutional. July 12, 1909, the sixteenth amendment to the constitution—permitting congress to place income taxes, was submitted to the states and by February, 1913, enough states had ratified the amendment for it to become part of the constitution. Since that time the government has annually collected income taxes, he said.

President Wesley Schaible, cashier of the First National Bank of Fairfield, presided at the meeting, with six banks represented. The next meeting will be held January 17.

## LOCAL WOMAN IS INJURED IN AUTO ACCIDENT

Mrs. Grace Raffensperger, 32, of South street, suffered a cerebral concussion and lacerations of the forehead, face and knees and had two teeth broken off at 5:45 o'clock Wednesday evening when she was thrown against the windshield of an automobile in a three-car crash on the Biglerville road near the Goldenville road intersection.

State police of the Gettysburg substation said a tractor-trailer outfit headed toward Biglerville had broken down on the grade. Attempts of another tractor-trailer truck to push it failed, and a tow truck had arrived from Biglerville. The driver of the second truck was "flagging" traffic, with his own vehicle parked at the side of the highway, police said.

Cars operated by Richard Plank, 20, of Gettysburg R. 3, and J. Clyde Walter, 61, of Gettysburg, R. 3, headed south toward Gettysburg, had stopped in a line of traffic held up by the breakdown.

An automobile operated by Mrs. Grace Smith, 29, of Gettysburg R. 1, also traveling south, ran into the rear of the Plank car, forcing it into the Walter automobile. Mrs. Raffensperger was riding in the Smith automobile. She was brought to the Warner hospital by another motorist.

Damage to the Smith car was estimated at \$225; to the Plank automobile at \$175 and to Walter's car at \$100.

## JANUARY 15 IS DEADLINE ON TAX REPORTS

Adams countians who hold some \$4,350,000 worth of mortgages, promissory notes, bonds, stocks and similar personal property were reminded today by the county commissioners that they must file a form listing their holdings on or before January 15.

The forms are obtainable from assessors, or at the county commissioners' office at the court house, here, or at any bank in the county. A four-mill tax must be paid on the holdings, the commissioners noted, and there is a 12 per cent penalty on those who do not file a list of their holdings with the commissioners.

Assessors now making their 1951 personal property tax assessment were urged by the commissioners to check particularly on persons who have recently moved into the county. Stocks and bonds and mortgages held on out-of-state corporations and individuals are all taxable here, it was noted, and it may be possible that newcomers to the county may not be aware of the tax on personal property.

**When In Doubt List Them**  
Residents of the county who hold promissory notes were reminded that they must pay tax whether or not the notes bear interest, and no matter where they are held. The same thing holds true of mortgages and judgments. An Adams countian holding a mortgage in California or other states would have

## MORE FIRST AID INSTRUCTORS TO BE TRAINED

Representatives of a number of county groups met with the Adams county Red Cross Wednesday evening to discuss possible plans for first aid training particularly in connection with civil defense.

## POLICE URGE CLEAN WINDOWS

State police of the Gettysburg substation today asked motorists to be more careful about clearing their windshields of frost or mist, and at the same time pointed out that the state motor code provides that windshields and windows of automobiles must provide clear vision at all times.

Two recent accidents were caused, in part at least, by frost on the windshields, police said. Drivers crashed into other automobiles because of the reduced visibility. Condensation on the inside of windshields and rear windows also can and does contribute to accidents, police said.

Automobiles which are parked outside all night are particularly liable to have windshields frosted over the next morning. Before driving, state police said, the entire width of the windshield should be cleared. They suggested that where cars stand out, a piece of cardboard be placed over the glass to prevent the accumulation of frost.

## Frozen Bodies Of Red Koreans And Chinese Litter Flank Of Allied Lines Near Beachhead

Tokyo, Dec. 21 (AP)—The Hungnam beachhead lay quiet today after Allied land-sea-air barrages mowed down and rolled back the Reds' most menacing attack on the perimeter. Frozen bodies of Chinese and white-robed Korean Reds littered the snow-crusted east flank of the United Nations defense ring where the attack was made.

Communist survivors apparently were numbed to a standstill by the fury of 'round-the-clock bombardment Wednesday by Allied warships, planes and land artillery.

Field dispatches reported the shattered survivors were thrown back from the point of gravest peril to the Allied forces holding their last sliver of northeast Korea around Hungnam on the sea of Japan shore.

Quiet also was reported on the western Korea front.

The U.S. Eighth Army reported an ominous buildup of Red strength behind the western front. Heavy traffic, including freight trains, was spotted moving Wednesday night near Yonchon, six miles north of parallel 38.

Eighth Army headquarters did not say whether the enemy buildup was Chinese or North Korean.

## TWO CHARGED WITH LARCENY IN \$400 THEFT

Charges of larceny were filed Wednesday afternoon by state police of the Gettysburg substation against Lee Andrew Johnson, 27, of Emmitsburg R. 1 and Thomas Raymond Ermine, 40, of South Mill, Clearfield county, in the state police investigation of the reported theft of \$400 at the Orttanna plant of Knouse Foods Cooperative, Inc., Tuesday night.

Johnson and Ermine were arraigned Wednesday afternoon before Justice of the Peace Robert P. Snyder on the larceny charges, and entered pleas of innocent. They were remanded to the Adams county jail.

**One Is Employe**

The program opened with the reciting of the Cub Scout promise and law, led by Nick Kargas, and the Scout oath and law, led by James Everly. More than 100 Boy Scouts and cubs filled a large section of the bleachers in the annex, joined in singing Christmas carols and received "treats."

**Scouts Are Commended**  
District Chairman Edward B. Bulleit welcomed the Scouts and Earl C. Pace, manager of radio station WGET, was master of ceremonies. The Rev. Clyde R. Brown, pastor of the Presbyterian church and advancement chairman, addressed both the new first and second class Scouts and complimented them upon their achievements.

A movie, in color, of the Boy Scout jamboree at Valley Forge last summer was shown by Mr. Dickson, followed by Christmas carols, led by Dr. Fred Tilberg. Gifts were exchanged, a peanut scramble was held for Cub Scouts and candy canes and oranges distributed.

SEEK HURRY-UP AGREEMENT ON PROFITS TAX

By G. MILTON KELLY  
Washington, Dec. 21 (AP)—Congress rose today for a hurry-up agreement on terms of an excess profits tax to skin millions from corporations on earnings.

The senate gave the measure a speedy approval yesterday, after a catch-the-highlights report from a tax-writing finance committee a what the bill would do.

Designed to take away an additional \$3,200,000,000 of this year's corporate profits, and far bigger than as defense spending mounts, the bill differs radically from the one in which the house had passed earlier.

Today a committee of senate and house members took over, seeking a compromise.

**Best Available Now**  
Senator George (D-Ga.), heading conferees, said the bill undoubtedly contains errors that the congress will have to correct. He said the bill is the best that could be done in this short session of congress.

As passed by the senate the measure would boost the corporation surtax from 20 per cent to 22 per cent, to go along with the excess profits tax. The house had proposed a surtax change, but its version of the excess profits levy was far less mild.

Both house and senate already agreed, however, on a 75 per cent tax on assumed "excess profits," defined as earnings that exceed 85 per cent of the average for the three best years from 1946 through 1949. And both agree the tax should be retroactive to last July 1.

COURT HOUSE PARTY  
Twenty-nine attended the annual Christmas party held by the county officials and their clerks Wednesday afternoon at the court house. Clark Petters of the board of county commissioners thanked the committee headed by Mrs. Martha McClellan for arranging the affair.

Washington, Dec. 21 (AP)—Failure of a majority of members to show up today threatened to force adjournment of the house until after Christmas. Home-bent Congressmen were leaving the capitol in droves last night and today. Lack of a quorum—218 of the 435 members—was indicated as only 179 members responded when their names were called by the clerk.

New Delhi, India, Dec. 21 (AP)—The ashes of India's late strong man and deputy prime minister, Sardar Vallabhbhai Patel, will be consigned to the waters of India's sacred Ganges and Jumna rivers at Allahabad December 29. Patel died last Friday of a heart attack in Bombay. He was cremated there the same day.

Hattie Carraway, Ex-Senator, Dies  
Washington, Dec. 21 (AP)—Mrs. Hattie W. Carraway, 72, of Arkansas, first woman ever elected to the United States Senate, died today at White Hall sanitarium at Falls Church, Va.

She had been ill since January 11. Her condition took a turn for the worse January 18 when she had a stroke which left her partly paralyzed. Mrs. Carraway was a member of the Federal Employees' Compensation Appeals board at the time of her death.

She was a senator for slightly more than 13 years during the administration of the late President Franklin D. Roosevelt. A Democrat, Mrs. Carraway went to the Senate November 13, 1931, by appointment to succeed her late husband, Thaddeus Carraway. Later she won one special and two regular elections.

byterian churches of the county should operate the home.

The will, signed in 1949, supercedes a previous will in which she had planned to leave bequests for the establishment of a children's home in Gettysburg.

Books suitable for the home are to be placed there from Miss Gilliland's Library and the remainder of the volumes are to be given to the county library.

A \$100 bequest in memory of Ella Gilliland is left to the Women's Home Missionary Society of Upper Marsh Creek Presbyterian church (Gettysburg church) and in addition \$100 is to be invested and income paid annually to the society.

A 30-acre property near Sabine Pass in Texas left to Miss Gilliland by her brother, William H. Gilliland, is to be turned over to the Bronsard estate at Port Arthur, Texas, of which the 30 acres was originally a part, the will directs.

The will was written in pencil by Miss Gilliland on tablet paper. It provided that her personal belongings are not to be sold and that usable clothing is to be given to Presbyterian missionaries.

Vaudreuil, Que., Dec. 21 (AP)—Three cars of a crack Toronto-Montreal passenger train with 800 passengers aboard teetered perilously over the edge of a St. Lawrence river bridge 35 miles west of Montreal today following derailment of a baggage car. Passengers were badly shaken up, but no injuries were reported immediately.

The train, operated jointly by Canadian Pacific and Canadian National railways, was crossing the Dorion bridge at about 7:30 a.m. (EST) when the lead baggage car cracked a bearing, while traveling at top speed.

The train ground to a stop with three cars projecting over the edge of the bridge and four others sunk up to seven feet in the framework after plowing through railway ties.

Traffic on the important east-west railway line was halted and wrecking crews from both railways were rushed to the scene.

Many of the passengers aboard the train were students returning to Montreal for the Christmas holiday. Also among the passengers was the Montreal Canadiens hockey team, en route from Toronto, where they played against the Toronto Maple Leafs last night.

Persons owning state bank or trust company stocks, or national bank stocks, which pay their tax in the state, do not have to list them with the county commissioners, as such stocks are not taxable, nor are bonds, notes or certificates of indebtedness from Pennsylvania corporations or mortgages issued by Pennsylvania corporations.

Those filling out the forms are asked to list all of their holdings, if there is any doubt as to whether they are taxable. No tax will be placed on those which are not taxable, the commissioners said.

The forms must be filed by January 15, and the tax is included in the regular tax notice sent by the tax collector later in the year.

New York, Dec. 21 (AP)—A sudden burst of activity in utilities today enlivened an otherwise sagging stock market. This group burst into life with gains of a few cents to more than a dollar a share. Buying was based on the theory that utilities had not participated in the spectacular rise of the last few days and therefore were due for an advance.

Gold mining shares generally were higher by as much as a dollar or a little more, but they were not particularly active on the advance.

## Unbeaten Cornell Impressive In Trouncing Bullets 82-45

Cornell's powerful unbeaten basketball team lived up to pre-game expectations by outclassing the Gettysburg college outfit here Wednesday evening 82-45 before approximately 1,000 fans.

Although the Bullets were far below their past three performances, a little more effective foul tossing in the first half would have made the game somewhat closer. The locals blew nine of 10 free throws in the first 20 minutes and then cracked wide open in the last half with the result the Big Red team breezed through to its sixth straight win.

The New York outfit played a tight defensive game which the Bullets had considerable trouble in solving.

Cornell took the lead early and never lost it. Ashbaugh landed a foul and Gerwin connected on a one-handed stab. Bob O'Brien hit from the side at 2:30 for the first Bullet score. The visitors ran their margin to 10-2 before Warren Watson landed a one-hander. Gerwin and Hank Belber exchanged goals. Eydnet netted a hook shot and Belber made a pretty steal and dribbled through for an easy layup.

**Bullets Close Gap**  
The Bullets battled to within two points of the visitors at 20-18 on goals by O'Brien, Watson and Belber but Cornell quickly recovered on tosses by Shadwick and Ashbaugh and left the floor at half time with a comfortable 34-23 margin.

It was all Cornell during the final half as it quickly ran its margin to 46-25 after the first five minutes of play. Coach Greene's reserves proved just as capable as his starters and a sub-center, Warner accounted for six goals in the final half.

The Bullets, now sporting a 2-3 record, next meet Lehigh here on January 6.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Dec. 21 (AP)—Horace Gilman is given credit for the most sensational play of last Sunday's Browns-Giants pro football playoff—a 55 yard punt on the dead run pass from center. . . A couple of others have hit the headlines by performing that running punt feat this season. . . But one guy, Harry Beck of San Jose State, apparently made it a part of his repertoire. . . A former Rugby player, Beck pulled the trick at least a dozen times—and we can't think of anything that would have a more demoralizing effect on the opposition. . . Hamilton Richardson, the New Orleans youngster who has been rated as the nation's No. 1 junior tennis player, also is a high school baseball and basketball star. He plans to enter Tulane. . . Golf world's editors have figured it out that Sammy Snead earned \$5.36 per stroke (in PGA competition) during 1950. Brother, wouldn't Sammy like to get paid off at that rate for all his practice swings?

Just to show the difference between two guys: . . . At Monday's basketball gathering someone (re-calling Happy Chandler's unhappy remarks in St. Pete) asked Gordon maestro Ned Irish what he thought "of the recent statement that sports would have to shut down in case of total mobilization." . . . The usually solemn Irish couldn't suppress a grin as he answered: "I don't even know who said that—but in such a case I imagine the proper authorities in Washington will tell us what to do."

Coach Harriet Harbaugh's team trained by a close margin throughout most of the game. Stough and Leib accounted for 27 points for New Oxford while Shorb looped 19 points for the winners.

New Oxford next plays at Newville in an Adams County league game on January 5.

## HANNAH PENN WHIPS JR. HI CAGERS 58-34

A fast-breaking Hannah Penn junior high school basketball team handed the Gettysburg junior high cagers a 58-34 jolt Wednesday evening at York and thereby avenged a four-point defeat here last week.

Coach Rogers Herr's outfit missed comparatively easy shots in the early moments while the defense bogged down with the result that Hannah Penn built up a 15-1 margin in the first quarter and was never in danger thereafter. The local contingent lacked spirit and will have to improve in that department if more triumphs are to come.

The Hannah Penn reserves won the preliminary game handsly 42-16. Minter landed five tallies to pace the locals while Klinedinst tallied eight points for the winners. Coach Herr used most of his entire squad in an effort to unearth a group of capable ball handlers.

Carlisle Junior high will be the next opponents of the Herr-men and will be met here on January 5. Gettysburg FG FM FT TP

## Warrior Cagers At York Tonight

Gettysburg high school's cagers journey to York this evening to tangle with unbeaten York high.

The Warriors were defeated here last week by the Bearcats and tonight's engagement will undoubtedly be a rough assignment. York's veteran outfit has breezed through five straight victories in easy style.

The junior varsity teams will clash in the preliminary affair at 7 o'clock.

Local fans will have an opportunity of hearing a radio broadcast of the varsity game which will start at 7:55 over WRZE, York FM station.

## Sports In Brief

New Orleans — Willie Shoemaker rode a double at fair grounds, boosting his winners for year to 360.

## GERMANY WANTS STIFF PRICE TO JOIN IN DEFENSE

By DEWITT MACKENZIE (AP Foreign Affairs Analyst)  
The West German government at Bonn is expected to demand a stiff price for participation in the new international military organization under General Eisenhower for defense of the western world.

The German attitude is based on the admitted fact that not only is the western Reich vital to the Allies strategically, but German manpower also is needed. The Allied plan has contemplated the incorporation of about 150,000 German troops in the defense army, but they would be divided into small groups of perhaps 6,000.

The Allies of course have aimed at maintaining safeguards against a revival of German military power capable of aggression. There has been some talk of allowing the Germans representation on Eisenhower's staff, but they wouldn't have a general staff of their own or ministries of defense or foreign affairs.

Have Fought Reds Before  
However, the Bonn government, under Chancellor Konrad Adenauer, has been demanding full equality with other nations in the defense plans. Naturally the Allies couldn't use compulsion, and they wouldn't wish to do so if they could. The Germans must act of their own free will.

Chancellor Adenauer has some strong arguments at his command if he chooses to use them. Not the least of these is that the Germans are among the world's finest soldiers. Their staff work is of very high order.

To my mind, however, the supreme argument lies in the fact that untold thousands of Germans, who would be available for military service, fought in the late war against the Russians.

These German officers and men know the Russian military methods and fighting ability as no other people do. That is an invaluable asset in view of the fact the defense army is being created to guard against possible attack from the east.

Washington, Dec. 21 (AP)—A major announcement on the railroad wage dispute was indicated today when Presidential Assistant John R. Steelman called a news conference for 11:40 a.m. (EST). The White House declined to say whether this meant a settlement had been reached.

Steelman had kept representatives of the railroads and four railroad unions in continuous session throughout the night.

Surviving are the following children: Mrs. Harry M. Hayes of Middletown, Ohio; Mrs. C. C. Eaton and D. Dean Myers of Erie and Mrs. J. M. Cook and W. Eldridge Myers of Philadelphia.

The time of the funeral, which will be held in Erie, has not been set. Interment also will be in Erie.

The ox is believed to have been one of the earliest animals to be domesticated.

## WEST IN COMA FOLLOWING KO IN 7TH ROUND

By JACK HAND  
New York, Dec. 21 (AP)—Al (Sonny Boy) West, a 21-year-old Negro boxer from Washington, D. C., hovered in "very critical condition" today after a knockout loss to young Percy Bassett of Philadelphia last night at St. Nicholas arena.

Surgeons performed an emergency operation on the stricken lightweight who was carried unconscious from the ring after failing to respond to stimulants.

West was losing but still appeared strong until Bassett tagged him with a straight right to the head after 29 seconds of the seventh round of a scheduled ten. On the cards of all three officials West had won only one round. Referee Harry Ebbets also had one even.

Sonny Boy, moving backward as he was hit, fell flat on his back, his head hitting the ring canvas with a thump. He did not regain consciousness.

Dr. Vincent Nardiello, New York state athletic commission physician, administered a stimulant in the ring. After West was carried downstairs to his dressing room in the basement of the ancient arena, Nardiello gave him another injection. Then the ambulance hustled him to St. Clare's hospital.

Performs Operation  
Shortly after arrival at the hospital, West was rushed to the operating room. Nardiello reported "neurological findings indicate a blood clot." Nardiello and Dr. James Danfies, a brain specialist, performed the operation.

Only 895 fans were present but many thousands saw the bout which was carried on a television and radio network.

It was in this same club that Lavern Roach of Plainview, Texas, was fatally injured when knocked out by George Small of Brooklyn last Feb. 23.

Bassett, 22, has won 47 of 49 pro fights and his last 19 in a row.

According to Ring magazine, there have been eight boxing deaths in 1950 throughout the world, amateur and pro. Only two were in the United States. The first was Roach and the second occurred Dec. 7 at Merced, Calif., when featherweight Samuel (Johnny) Lopez of Richmond, Calif., died after being knocked out by Joe Madrid of Stockton, Calif. Last year there were 18 ring deaths.

## Today's Talk

By GEORGE MATTHEWS ADAMS

BOOK WITH A SOUL

I read few modern novels, and fewer "first sellers." I like novels that have become fully aged and long tested—mature stories. But recently I have become interested in the writing of a Canadian author, Thomas H. Raddall. A friend, knowing of my love for Nova Scotia, presented me with one of his books that I found most interesting, but not until his latest book, "The Nymph and the Lamp," did I go "all out" for this talented writer.

Rarely have I read a novel combining so many elements of poetry, beauty and human understanding as are contained in this book. Its background is Nova Scotia and a bleak, sandwiped island about 90 miles off the main coast. Its main characters are a modern, gold crested Viking type of a man, who was the chief telegrapher on this remote island, and a "tall, clear-eyed and self-possessed young woman," who met for the first time in the government telegraph office at Halifax, where she was a secretary.

The publishers of this book state that "it is an eloquent story as powerful as the surging sea that is so much a part of it. The story of an unselfish man and a sensitive woman in whom the seeds of greatness are brought into rich maturity by honest passion and sacrifice." This statement is not exaggerated. My interest and admiration were held from the first page to the last. Isabel Jardine and Matthew Carney will long live in my memory as real and vital personalities.

This novel is full bodied, finely balanced, and expertly constructed. Its writing is beautiful prose, and its characters run true. You will find in this fine book no gross or indelicate words that so many stories these days reek with. It is a book with a soul. It is also exciting reading with continual movement and dramatic situations. It's one of those books, that after you have read it, you will say to yourself: "I must read this book again!" I know that I shall. I wish there were more such books—books that will live.

Tomorrow Mr. Adams will talk on the subject: "The Clean Up Men."

## Santa and the COWBOY

AP Newsfeatures

By LUCRECE HUDGINS

Chapter 16  
**JINDIAN WAR DANCE**  
"Help! Help!" yelled Bucky as he felt himself thrown across a horse.

"Santa! Come quick!"  
But the Jindians had covered the little cowboy with a blanket that smothered his cries for help. Although he wiggled and fought and kicked, he couldn't escape the ropes that bound him.

The Jindians galloped for hours. It wasn't very pleasant for Bucky to be bouncing up and down on a horse's back with a blanket over his head and not knowing what awful thing was going to happen to him.

"If only Santa knew about this," he thought. "He would think of some way to help me."

He knew he would never have won the two contests with Lonesome Boy if Santa had not made him the wonderful cherry stick horse and the silver tipped arrow. "But there's nothing Santa can do for me now," he told himself.

The Jindians took him to the Jindian camp which was in a forest miles and miles from Santa Land. They stood him on the ground and took the blanket off his head.

He found himself blinking into a great bonfire. On the other side of the fire stood the Jindians. There was Chief Hurricane, and behind him was Lonesome Boy, solemn as ever but looking sad at what was happening to the boy who had saved his life.

"I don't understand," said Bucky in a shaky voice. "Why have you brought me here?"  
"You shame us," thundered Chief Hurricane. "You win riding contest. You win shooting contest."

Before Bucky could speak Chief Hurricane threw up his hands as a signal. Immediately the Jindians started whooping and dancing around the fire, beating drums and stamping their feet.

Two Jindians seized Bucky and took him away to an empty tent and tied him up. The war dance grew wilder and Bucky wished that he had never left his home at all. But then he thought, "Why, if I hadn't come, maybe there wouldn't be any Santa Land left."

Then right away he remembered about Dasher being lost and without Dasher to lead the reindeer Santa could not bring Christmas to the world. So nothing had been saved at all.

"But Dasher is probably right here in this camp!" thought Bucky out loud. "Oh, if only I had some help!"

Right at this moment a soft voice said, "Me help!" There was Lonesome Boy crawling into the tent.

The Jindian cut Bucky's ropes. "Cowboy twice saved me," he whispered. "Now me save him." When Bucky was free, Lonesome Boy said "Follow me!"

They ducked under the back of the tent and crawled on hands and knees past the tents and wigwams. All the time the whooping and drum beating were growing wilder and Bucky guessed the Jindians were just about ready to finish him off.

Lonesome Boy led him into the corral where the Jindians kept their horses. Bucky hoped if Lonesome Boy gave him a horse it would be a good one that would travel fast.

But Lonesome Boy didn't take him to a horse at all. He led him to a shed where there was a great beast with spreading antlers and eyes that gleamed in the night.

"Dasher!" Bucky cried. "It's Dasher!"  
Lonesome Boy cut the tether that held the deer and Bucky climbed on the deer's back. He looked down at Lonesome Boy. "Come with me!" he whispered suddenly. "Be my friend."

For a moment the Jindian never

Lonesome Boy climbed up behind Bucky and Dasher sprang straightway into the sky.

## WILSON BEGINS DUTIES AS NDM DIRECTOR TODAY

Washington, Dec. 21 (AP)—Charles E. Wilson officially takes over the reins of national defense mobilization today. He's set to drive fast.

The former head of General Electric arranged to take the oath of office at the White House well under 24 hours after the Senate rushed through confirmation of his appointment.

Already, in another step toward cushioning the shock of the defense buildup on the nation's economy, the government had asked 250 large corporations to give at least seven days' notice before raising prices on any major products.

Economic Stabilization Director Alan Valentine said this would give his agency time to study the proposals and decide if they were justified. If not, the agency could ask to order their abandonment.

**GM Appeal Refused**  
Valentine telegraphed the companies to give such advance notices on any line in which they do an annual business of \$500,000 or more.

The Economic Stabilization Agency (ESA), also told General Motors corporation that its appeal for modification of an automobile price roll-back has been rejected.

Two firms asked to help hold the price line—International Harvester company and Socony-Vacuum Oil company—wired agreement to go along with Sinclair Oil Corp., officials said their company would comply.

And Standard Oil Company (New Jersey) officials said compliance was up to affiliated operating firms but added they would be "surprised if the affiliates did not go along."

International Harvester announced moved. Then he said, "me friend. Me go."

He climbed up behind Bucky and Dasher sprang straightway into the sky.

(Next: A Merry Christmas to All)

it is withdrawing price increases announced December 12 and voluntarily rolling prices back to December 1 levels. It said, however, that this creates a hardship and the firm will press for early government hearings or reinstatement of the price increases.

**Costly Lack of Controls**  
Commenting on the rapid developments in the fight against inflation, Rep. Sheppard (D-Calif.) said today that lack of controls retroactive to June already has cost the military rearmament program \$5,300,000,000 due to price increases. Sheppard is vice chairman of the House armed services committee.

And the Senate appropriations committee issued a statement sharply criticizing the soaring prices of rubber tires, uniforms, parachutes and other items vital to the defense buildup.

The committee estimated inflation has cut the value of defense appropriations since the Korean fighting began by approximately \$3,000,000,000.

It told army, Navy, Air Force and other defense officials that contracts should be let at once and delivery speeded to avoid additional price increases.

Talks already were underway on the question of wage-price controls in the automotive industry. ESA officials said that a voluntary wage formula will be worked out "as soon as possible" to go along with the voluntary price "freeze" the government asked Tuesday night.

**GETS "PRESENT" FROM THUGS**  
New York, Dec. 21 (AP)—Joseph Cosgrove told police that two hold-up men early today took his wallet, containing \$385, and then handed back \$25 with the comment: "This is your Christmas present."

The cockroach was one of the first forms of winged insects to develop, a study of fossils indicates.

## XMAS CHEER IS PLANNED FOR 39 INSTITUTIONS

Harrisburg, Dec. 21 (AP)—The Christmas season will bring cheer to patients and inmates at all of Pennsylvania's 39 state-operated mental, penal and general hospital institutions.

Recreation rooms at many of the institutions are being gaily decorated with Christmas trees, trimming and wreaths in line with yuletide tradition.

Preparations for many of the holiday observances were begun many weeks ago, William C. Brown, state welfare secretary said.

Special parties, pageants, plays, dances, movies and other forms of entertainment have been scheduled for all those who can and wish to take part, said Brown.

Group singing by candlelight and carol services are planned at virtually all the institutions.

**Colorful Services**  
"In a number of cases organizations, especially church groups, are joining with local institutions in providing colorful and appropriate services," Brown said.

On the dinner table at state centers on the big holiday will be roast turkey, chicken or baked ham.

State troopers will visit the state hospitals for crippled children at Elizabethtown tomorrow bearing gifts and bringing entertainment.

On Saturday, the Lancaster Shrine club will make its annual presentation of toys and candy to the little patients who also will receive a visit from the Elizabethtown Rotary club's Santa Claus.

Christmas activity at the Mont Alto state sanatorium, South Mountain, began last week when war veteran patients received gifts from veterans' organizations in Franklin and neighboring counties.

**VFW Give Gifts**  
The Waynesboro Veterans of Foreign Wars post will contribute gifts to children confined at the Mont Alto children's hospital.

Along with Mont Alto, the Cresson and Hamburg state sanatoriums have placed gaily-decorated spruce trees on lawns in plain view of all

patients, and parties will be held for both patients and personnel.

The commonwealth's Christmas spirit extends beyond its borders as far as Camp Atterbury, Ind., where the 28th Infantry Division, a state National Guard unit, is engaged in federal training.

Maj. Gen. Daniel B. Strickler, division commander, and lieutenant-governor on military leave, has granted five-day leaves over the Christmas holiday to half the division. The other half will go on leave over the New Year's holiday.

**Warnings Of Hazards**  
As yuletide preparations were underway, M. F. Draemel, secretary of forests and waters, warned of fire hazards incurred in the lighting of Christmas trees.

Draemel recalled the disastrous Hyndman Christmas night fire of 1949 and called for "proper handling and caution" with tree decoration so that the disaster will not be repeated.

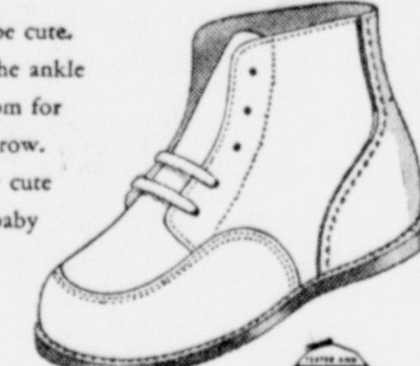

The Hyndman holocaust killed two persons and swept away homes and property valued at \$750,000. It was touched off by careless decoration of a Christmas tree.

When cannon were first introduced in warfare, they were operated by private individuals who were employed by the armies on contract.

## CLUB WILL BUY LAMPS; DONATES TO SCOUT FUND

The Woman's Community club will purchase three additional 15-watt germicidal lamps and pay for installing them, as a special project for the club year. Stanley B. Stover, electrical contractor, will give a fourth lamp. This was decided at the monthly meeting Wednesday evening in the P. O. S. of A. hall. The lamps will be installed in the grade school building.

The club also voted a contribution of \$50 to the Boy and Girl Scout financial drive, \$40 of which is for the Girl Scouts, who were originally sponsored by the club, and the remainder for the Boy Scouts. A contribution of \$1 was voted to the Adams County Tuberculosis society for Christmas Seals. Individual donations were made to the Penny Art fund of the Pennsylvania federation. An announcement was made concerning the Christmas decorating contest being sponsored by the Littlestown Junior Chamber of Commerce.

The business meeting of the club was in charge of the president, Mrs. Leonard L. Potter, and opened with the singing of "Joy to the World," with Miss Louise Duttera as piano accompanist and Mrs. Maurice Rider as song leader. The salute to the flag and the club collect followed. The secretary's report was presented by Mrs. Edward Leister and the treasurer's report by Mrs. Richard A. Little. The report of the cheer committee was also presented by Mrs. Leister. Miss Sandra Bemiller was introduced as a guest.

## Pack Christmas Baskets

Contributions for the Christmas baskets to be packed by the welfare committee were taken to the meeting. Those who may still wish to contribute may give their donations to Mrs. Joseph R. Riden, chairman of the committee. The baskets will be packed and distributed to needy families of the community on Friday by the committee, which also includes Mrs. Harry Badders, Mrs. Nevaeh Crouse, Mrs. John N. Sell, Mrs. Millard E. Basehor, Jr., Mrs. Edward Leister, Mrs. Carrie Strine, Mrs. Edna Geiselman and Mrs. James W. Payer.

Mrs. Marvin Breighner, co-chairman of the general committee in charge of the dinner and bazaar sponsored by the club to establish a fund for the purchase of new uniforms for the senior high school band, gave a financial report of the affair.

Approximately 700 dinners were served, with members of the band selling 286 tickets. The bazaar alone netted a profit of \$185.50. The gross receipts amounted to \$1,023.96 and the over-all net profit for the event was \$765.71, which has been placed in a separate fund. The president appointed Mrs. H. Dean Stover and Mrs. Charles E. Tressler as a committee to contact the other organizations of the community to sponsor some event to raise additional funds for the band uniforms.

Mrs. John Way and Mrs. Louis Clingan were accepted as new members. Mrs. Hamilton C. Walker, Mrs. Edward Leister and Mrs. Carroll Arter were appointed to take care of the purchase of the germicidal lamps for the grade school building. It was decided to purchase a coffee maker and servers and Mrs. Clayton L. Evans was appointed to arrange the details of the purchase.

Byers, Mrs. Carroll Arter, Mrs. Robert Miller, Mrs. George P. Smith and Mrs. Clayton L. Evans. The program was built around an informal meeting of the committee, making preliminary plans for the presentation of the Christmas program, and what each might contribute in the way of entertainment.

Mrs. Evans was acting chairman and the program they decided to present was the telling of the Christmas story from Matthew by Mrs. Leach; group singing of "O Come All Ye Faithful" and "It Came Upon a Midnight Clear" with Mrs. Rider as leader and Miss Louise Duttera as accompanist; humorous announcement concerning the shopping days, Mrs. Robert H. ## Calgary Confused On Source Of Name

Calgary (AP)—Calgarians have always taken for granted that the name of their city comes from a Gaelic word meaning "clear, running water." But now it appears that might not be so.

The late Col. James MacLeod, early mounted police officer, named Fort Calgary after his Scottish home in the Isle of Mull. His son, Norman MacLeod, recently visited Scotland and looked into the derivation of the name of Calgary.

His findings? The word Calgary might mean anything from "hard water," "a bristle," to a proper name.

Henry T. Bream, Gettysburg, will speak on the highlights of the White House Conference on Youth which she attended in Washington. The program committee includes Mrs. Paul R. Snyder, chairman, Mrs. Bernard M. Shelby, Mrs. Claude Snyder, Mrs. Alvin Groff, Mrs. Raymond Geisler, Mrs. John Kindig, Mrs. George Strevig, Mrs. John Way and the hostess committee is composed of Mrs. Cloy I. Crouse, Mrs. Edgar Orndorff, Mrs. Emory Gitt, Miss Edna Blocher, Mrs. Paul Luckenbaugh, Mrs. E. Roy Kindig, Mrs. Harvey W. Schwartz and Mrs. Louis Clingan.

The power of chameleons to change color often is greatly exaggerated and the chameleon power of change is equalled by that of other lizards.

## Plead For Care In Holiday Driving

Harrisburg, Dec. 21 (AP)—The State Highway Safety Bureau asks motorists to observe these two rules during the holiday season:

1. Drive carefully.  
2. If you're going to drive, don't drink intoxicating beverages.  
T. Elmer Trauseau, safety director, said, "There is something positively inhuman about the motorist who calls an attitude toward his fellow man that he insists upon driving while under the influence of intoxicants."

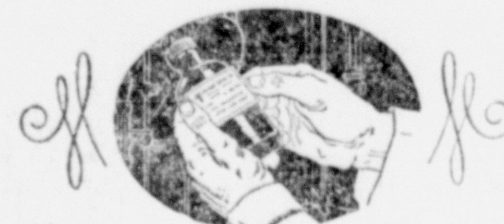

John L. O'Conner and Mrs. John Harmon were the godparents.

ABOUT that old prescription Dr. Jones wrote for you two years ago. The bottle is on the shelf in your medicine cabinet, about one-fourth full. It would be safer for you and your family to discard it. Someone might take it by mistake, or a child might be attracted to it by the bright color and do himself harm. Many medicines deteriorate after exposure to light and air. On long standing, some compounds change their chemical structure. Yes, the safe thing to do is to throw it away. If illness again overtakes you, see your doctor. ## GOVERNMENT IS EDUCATING HOW TO LIVE LONGER

Washington—(AP)—The Government Printing Office has just put out a new booklet on "Education For A Long And Useful Life."

It was prepared by the Federal Security Agency's Office of Education. Galen Jones of that office says the pamphlet "indicates some of the beginnings of the programs that need to be worked out by the schools and other educational agencies."

"The number of people past age 65 is expected nearly to double within the next generation," says Jones. "Much of the groundwork for a longer and more useful life must be laid during the in-school years. Among the problems that face the public school, few are more important than that of providing suitable learning opportunities for those in the latter half of life."

To which Federal Security Administration Oscar R. Ewing adds:

"We are coming to recognize the need for measuring the material and spiritual aspects of our way of life against the need for making more meaningful and pleasant the years now added to the average lifetime."

"Much of the groundwork for a long and useful life can best be laid during the regular school years. But our public schools must also assume new responsibilities. They must offer educational opportunities appropriate to adult development and preparation for the mature and less active years of later life."

The new bulletin reports that during 1947-48 only 25 public schools had special activities for people past retirement age. It proposes that the local school take the lead in urging development of a well-rounded community program for the aging and aged. It says schools should help develop among the public the attitude that:

1. Making a community a good place for old people is a responsibility of the entire community.
2. Preparation for a continuously creative and productive period of later maturity should begin early.
3. Old age should normally be as happy a period as any other.
4. Adults should continue to adjust during the middle and older years as their changing biological, social and vocational environments demand.

5. Employ Older Workers
6. All people should work at suitable employment as long as they are able.
7. Employers should become more receptive toward employment of older workers.
8. Labor-management agreements.

## DOWN BIG GAME WITH ARROWS

Leopoldville (AP)—Howard Hill, the Wilsonville (Alabama) bow and arrow champion, has completed a seven-month, 12,000 mile trip through the Eastern Congo, Kenya and Uganda. He was to shoot the outdoor scenes of a new semi-documentary film on African wildlife with the probable title of "Timbo" (Swahili for elephant).

Hill shot all his game with a bow, a type invented by himself and consisting of laminated bamboo. The program of his trip called for the killing of an elephant, a lion, a leopard, a python, a buffalo, a rhinoceros, a crocodile and a hyena. This program was fully carried out, and to be sure the operators wouldn't miss anything, Hill shot two elephants and lots of crocodiles and hyenas, which are not legally protected.

For a lion or a buffalo, Hill said, one arrow is enough. He shoots mostly from a distance of between 50 and 60 yards. The arrow pierces the thick and elastic skin of the African elephant. The rhinoceros is still more vulnerable. Hill shot an arrow into one rhino which completely disappeared.

"The animal never knows whence the silent arrows strike and generally does not discover the hunter but flees upwind, while a good hunter always sneaks in from down the wind," Hill says.

Springfield, Mo. (AP)—Down here in the Ozark hills, 150 miles from the nearest television station, television programs are coming in strong, despite the accepted rule that a telecast may be seen normally in a radius of only 50 or 60 miles.

## Motorist Kills A Bobcat With Hammer

San Bernardino, Calif. (AP)—Mack L. McCall bagged a bobcat with a hammer on a city street.

McCall was driving at night in nearby Colton when the cat ran in front of his car. He slammed on his brakes, a hammer in his hand. He slung it and made a lucky hit—on the head.

The animal came out of it and lunged. McCall bopped it again with the hammer, putting it away for good.

## East Is West For German Staakeners

Berlin—(AP)—It's a bit difficult for Staakeners to find their way through the east-west cold war. Staaken is a small western suburb, about ten miles from the heart of Berlin. Its

eastern half is British, its western half Russian.

When Communists attack "western imperialists," East Staakeners look at the Russian sentries on guard in the western part of their town. For West Staakeners, the "West" is still the Russian zone, to which their part of the suburb was ceded by four-power agreement in 1945.

But the "East" is British East Staaken, and, still farther to the East, lies West Berlin.

## BUFFALO STAMPEDE FILMED

Billings, Mont. (AP)—A buffalo stampede, awesome but familiar sight to Indians and pioneers of another day, has been caught for the movies. Jeeps, aided by Indians on horseback, recently stampeded the Crow Indian tribe's bison herd for a scene in the motion picture "War Path," dealing with the life of Gen. George Custer.

## Many Scholarships From Odd Sources

New York—(AP)—Clarence E. Lovejoy, who publishes a college guide for parents, teachers and institutions, reports that maintenance workers of the University of Bridgeport (Conn.), including janitors and groundsmen, are supplying a \$225 half-tuition scholarship from weekly deductions of 25 cents from their pay envelopes.

In West Virginia, he says, a drugist is giving \$50 per semester as a loan fund to a West Virginia University student. Interest at four per cent begins one year after graduation and repayment must be completed within three years after graduation.

This fall 78 former golf caddies are attending colleges with the Chick Evans Scholarships awarded by the Western Golf association.

## Singapore Boats To England Jammed

Singapore—(AP)—Singaporeans and residents of the Federation of Malaya who want to go to England by sea any time soon are in for a long wait unless they've booked many months ago. Travel agencies say every steamer is sold out up to the end of next June.

They add that there simply are not as many liners or freighters coming into Singapore port as before World War II.

Travelers to the United States don't face any difficulties. There's plenty of space aboard liners and freighters. That's because so few people travel from here because under currency restrictions, they can't get enough dollars for their trip. So American citizens make up most of the travellers going to the United States.

# Emmitsburg Plans Full Day X-mas Fete Saturday

Emmitsburg's annual Christmas party will be held under sponsorship of the Lions club all day Saturday, starting with movies in the morning, followed by a luncheon and a visit from Santa Claus.

Usually held on the day before Christmas, the celebration was moved up to Saturday this year, because the day before Christmas occurs on a Sunday. Similar programs have been held in Emmitsburg for more than 20 years.

Usually the programs conclude with church services. The special services this year, however, will be held on Sunday night.

The program will get underway at 10 o'clock Saturday morning with a free movie show at the Gem Theater provided by the courtesy of the manager, Ernest R. Shriver.

To Serve Lunch

Following the show a free lunch will be served at noon in the fire hall. The committee in charge of the lunch includes the Rev. Philip Bower, chairman; Mrs. E. R. Shriver, Mr. and Mrs. Charles Fuss, Mrs. Carrie Hartzell, Bernard J. Boyle, Scoutmaster Henry Charlton, and members of the Scout troop, and other volunteers.

The lunch will include vegetable soup, hot cocoa and cheese sandwiches. The Rev. Mr. Bower said Roy Bollinger meat market 15 gallons of milk will be donated by the local dairy, and seven pounds of cocoa and other foods are being contributed by Frailley's store. He added that the committee would be grateful for contributions of canned vegetables for the soup. The contributions should be left at Bollinger's store anytime prior to 8 o'clock Saturday morning.

Santa To Arrive

While the lunch is mainly for children, Chairman Bower said, "no one has ever been turned down and we plan to serve lunches as long as they last to all who want the food."

General Chairman Clarence Hahn announced that Santa Claus plans to arrive at Zora by plane about 2 o'clock Saturday afternoon. He will be met there by the committee and escorted to center square to meet the children of the community and to distribute candy and oranges. Santa will have with him about 800 boxes of candy and as many oranges, Chairman Hahn said.

Stores in Emmitsburg will be open all day and until late Saturday night as a convenience to customers. Music will be amplified from the tower of Elias Evangelical Lutheran church again this year. Ralph McDonnell has installed a microphone in the church to permit amplification of recorded music through the tower amplifier system.

Church Services

The celebration, which includes the street lighting of the community, will cost the borough about \$500, it was estimated. The town itself is paying for the lights. Eighty local business places, merchants and patrons are underwriting the cost of the celebration.

In connection with the pre-Christmas activities the churches of Emmitsburg are planning special services Christmas Eve.

At 7:30 o'clock Sunday evening there will be services in the Presbyterian, Methodist and Reformed churches. The annual candlelight Christmas Eve service will be held in the Lutheran church at 11 o'clock with special music by the chapel choir, directed by Mrs. Clarence Bartholomew of Gettysburg. A solemn high mass will be sung in St. Joseph's Catholic church with special Christmas music arranged by the organist, Mrs. Euphenia Rotering, at midnight.

The Lions club committee in charge of the staging of this Annual Community Christmas party is headed by Clarence Hahn and includes Charles A. Harner, Clarence Frailley, Francis Matthews, Herbert Roger and Ralph McDonnell. Sub-committees are: Decoration, Ralph McDonnell and helpers; trees, Quinn Topper, Charles Spriggs, Cloy Seiss, Charles Fuss, and M. R. Tate;

## School Program Is Given Wednesday

The Emmitsburg school Christmas program was presented to a large audience that filled the school auditorium to capacity Wednesday night. It was the occasion of a joint meeting of the PTA and the local Grange. Wednesday night, December 20, was the regular meeting night for the Grange, which meets in the school auditorium. Next Wednesday night, December 27, the regular night for the PTA, comes too late for the school to present the Christmas program. When the proposal was made by Prof. Arvin Jones, principal, that the school's annual Christmas program be given on this date each of the two cooperating organizations unanimously voted to hold a joint meeting.

A large cast of actors and singers from the various classes of the high school presented the story of the prophecy and the birth of the Saviour. The speaking part of the pageant was directed by Mrs. Hazel Caldwell, English teacher, and the music was directed by Keith Janicke, teacher of music. Following the program a social time was enjoyed and refreshments were served by the home economics class, with Miss Helen Neighbours in charge.

## Apartment To Have Elevator Telephones

New York—(AP)—Telephones for passengers are being installed in all elevators of the new Sutton Terrace luxury apartment project on New York's fashionable east side.

The phones are being hooked up to the house switchboard in the three structures that comprise the project. Convenience and safety are the purposes.

David Tishman, one of the builders, explains that a tenant who has forgotten to call the doorman to order a taxi before leaving an apartment, will be able to call from the elevator and have a taxi waiting at the curb.

ON RADIO PROGRAM

Morning devotions over radio station WFMD, Frederick, were conducted by Rev. Philip Bower, pastor of Elias Evangelical Lutheran church on Wednesday at 9:15 a.m. Rev. Bower will conduct these devotions again next Wednesday at 9:15 a.m. over the same station.

# CHAMBER JOINS NATIONAL BODY

The Emmitsburg Chamber of Commerce held its December meeting Tuesday night in the fire hall. President B. J. Eckenrode presided.

A decision was made to join the National Chamber of Commerce. It was explained that the fee is only \$10 per year and that there were no further obligations placed upon the local club in joining the national body. There are many advantages, however, in being connected with the larger group. It was pointed out. There are a number of services coming to the local chamber. It was also decided to have a big jamboree celebration next May in observance of the Chamber's first anniversary. C. A. Elder was designated chairman of a committee to promote and arrange the details for this affair.

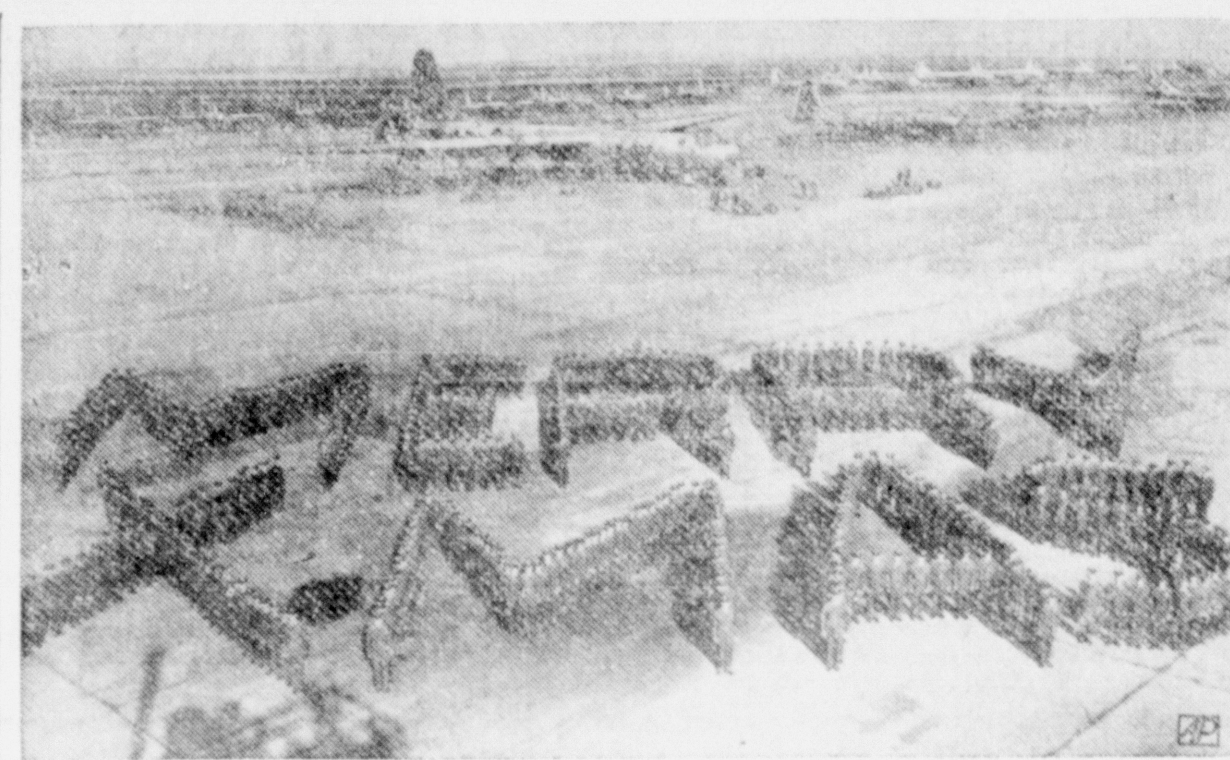

Colonel Thomas J. Frailey, who had been appointed to get information on the Samuel Enmit grave, made a report as follows: "In the history of Emmitsburg published in 1906, James A. Helman, pointing out that Samuel Enmit, the founder of Emmitsburg, was buried in the Presbyterian cemetery in an unmarked grave, made a plea for a small contribution from each reader of the history toward a marker to the memory of the founder of the town. This matter was presented to the Emmitsburg Chamber of Commerce at the November meeting for appropriate considerations and I was appointed by the president to head a committee to locate, if possible, the grave and ascertain whether it was still unmarked. In behalf of the committee I desire to report to the chamber that I visited the Presbyterian cemetery and found the grave and that it was marked with a small white stone with the following brief inscription: 'Samuel Enmit, Founder of Emmitsburg.' No dates were found on the marker. The chamber accepted this report and decided to hold the project for future consideration."

## WHAT'S IN A NAME?

Prague (AP)—Prague avenues named after British Field Marshal Lord Montgomery and American General Dwight D. Eisenhower ought to be rechristened, a reader wrote in to the newspaper "Mlada Fronta."

"These gentlemen, initiators of a new war, are also enemies of the English and American nations," he argued.

# SAYS ATTACK WOULD UNITE PAKISTAN, INDIA

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

Are the two great nations of the Indian peninsula—India and Pakistan—ever likely to reconcile their racial and religious differences sufficiently for union under one government?

I raise that as something more than an academic question because of the grave dangers which surround the two nations as the result of the Red upheaval in Asia.

Despite the division of what formerly was part of the British empire, the question of unity has persisted, or perhaps one should say it has persisted because of the division, since the present set-up represents an unhappy separation of the peninsula's resources.

Cause For Concern

And these resources included the strong army which Britain had created. That was divided between the two new governments.

The recent moves by the Chinese Communists to establish control over Tibet and Nepal, on the northern frontier of the Indian peninsula, have caused both India and Pakistan deep concern. Such a control might constitute a military threat against the peninsula.

## Israelites Fish Off Scot Shores

Tel Aviv (AP)—Two partly Belgian and partly Israeli manned trawlers will be based this fishing season at Aberdeen, Scotland, to net fish for Israel in the Gulf stream waters near Iceland.

The trawlers are of the mainly Israeli-owned Ezra Deep Sea Fishing Co., Ltd., which has promised the Israel government to provide 3,000 tons of fish this year.

The yearly fish consumption of Israel is about 22,000 tons a year. This plays an important part in the austerity ruled, almost meatless local diet.

fires of religious and racial animosity still burn strong.

However, I predict a quick temporary union for defense if either is attacked. And that might pave the way for a unified state.

# LITTLE COWS GIVE MEAT TO LITTLE BUYERS

Vero Beach, Fla.—(AP)—Nobody knows where the Florida "guinea" cow came from, but after 400 years it has developed a future.

W. E. Sexton is seeing to that. He crossed it with the big, humped Brahma and developed a midget strain that answers a demand for smaller beef cuts.

The "guinea" was little more than a varmint when Sexton took over four years ago. It supposedly was brought over by the Spanish when Florida was new and men still sought the fountain of youth.

It wandered the hinterlands as a wild cow through all Florida's history. Sexton got his breeder from the wilderness around Kenansville in Mid-Florida.

He's Laughing Now

Most cattlemen were breeding for bigger and better strains when Sexton announced four years ago that

he planned to produce a midget with the "guinea." They laughed at him. Now Sexton is doing the laughing.

His aim was to produce a veal calf that would average 250 pounds in 120 days. He crossbred his pygmy with the big Brahma, an East Indian strain, and he is happy with the result. His midget averages 301 pounds in 120 days. It fattens on grass, not grain.

He has topped the Kissimmee livestock market three times for prices, and he is so cocksure of the future that he has organized the American Guinea Breeders association. Sexton holds all its offices.

## Singapore Docks 1st Jap Ship Since 1945

Singapore—(AP)—The first Japanese ship to dock in Singapore since Japan's surrender in 1945 arrived here recently with 57 Japanese crewmen, en route to Penang, South Johore, to load 9,000 tons of bauxite for Japan.

The crewmen were not allowed to land, as no Japanese will be permitted here until a peace treaty is signed with Japan.

## ADDED HONORS COME TO ARMS EXPERT, WRITER

Philip B. Sharpe, small arms expert and research consultant, has just received word that he will be listed in the next issue of "Who's Who in America." Mr. Sharpe has previously been listed in "Who's Who in the East" and "Who Knows and What?"

Another distinction which came recently to Mr. Sharpe is that after contributing many articles over the past 25 years to The American Rifleman, he has been named staff writer and consultant for the technical division of the National Rifle Association of America, publishers of the American Rifleman, Washington, D. C.

The association, according to Mr. Sharpe, is international in scope, with approximately 350,000 members in America and a large number in foreign countries. It has affiliations throughout the world and establishes rules and regulations for shoots and contests and keeps American marksmanship records. The staff of the American Rifleman handles approximately 2,000 letters per month. The association has six members in Emmitsburg.

### No Repair Work

Mr. Sharpe's work is research. "Please tell the people that I do not do any repair work," he said, "and that I have nothing to sell. So many come to me with their repair jobs when they hear about my work, and I hate to turn them down, but I have to."

For the past year Mr. Sharpe has been doing private research work for a wealthy Californian, on the development of a long range and powerful rifle cartridge. This work includes the development of a new rifle as well as a new shell. What they are attempting and developing is in the field of the unknown and considered by the orthodox to be impossible, he said. Sharpe puts emphasis on the point that this is strictly a non-commercial project.

The sponsor does not hope to make any money out of it. Such a shell could be of decided advantage to big game hunters.

If successful, Sharpe will have a shell and a rifle to shoot it that will have twice the range and the power of the present standard American shell. Associated with Sharpe is Robert Ditchburn, Gettysburg gunsmith. Other associates are research experts Thomas E. Florich, of New York, and A. J. E. Shay, of Wurtsboro, N. Y. They spent a week with Sharpe at his range

and laboratories each summer; on a specially prepared test program. Research work involving problems in physics are handled for the Sharpe laboratories by Professor R. Cushman Wyckoff, head of the department of physics at the University of Oklahoma. Wyckoff is a frequent visitor at the Sharpe laboratories. Extensive mail received from Sharpe includes letters from 12 foreign countries. Mr. Sharpe said he has no military connections. He severed all these over a year ago.

### Served In Army

Sharpe majored in political science and economics. He has done this type of small arms research, together with writing in the same field, since graduating from college. A commissioned officer in the U. S. army in World War II, he continued to do approximately the same type of work while in service in the states and on foreign duty. He said that his present facilities are the most complete and the location the most ideal he has ever had. He selected his present location after looking over many others throughout the country.

Sharpe does not know how his wealthy California sponsor came to him, but the latter calls him frequently by phone from California and sometimes flies here.

Elaborating a little more on this present major project Sharpe said: "We are calling the thing 300 magnum condor. The problem of barrel is not solved yet, nor is the problem of high velocity with a long heavy bullet. So far five different barrels have been designed, built and tried and rejected." An indication of the expense involved in the project was given when he said that it cost over \$150 to have one barrel made and that each shell must be hand-made at an expense of about \$1.50 per bullet.

"Since this work is in the unknown realm I must draw on back knowledge, project new ideas and then try them out in experiments, accept what works and eliminate the errors," he said.

Sharpe said that at first the bullets blew up and disintegrated entirely soon after they left the barrel under the tremendous high velocity of bullet spin and speed. This has been overcome and he is now working mainly on accuracy. This project together with his new appointment as staff writer for The American Rifleman and consultant keeps Sharpe busy, but he finds time to be an active citizen in club and community affairs.

## WILL WED ON CHRISTMAS DAY

MISS MCNAIR

Peninah Morrison McNair, daughter of Mr. and Mrs. Harry McNair, Emmitsburg R. 2, and Donald Paul Smith, son of Mr. and Mrs. Walter Smith of Woodsboro, Md., have set Christmas Day for their wedding which will take place in Elias Evangelical Lutheran church, Emmitsburg at 4 o'clock.

The bride has selected her former high school class mate, Ruth Neighbors, as maid of honor and Sterling Claybaugh is to be best man.

Officiating clergymen will be the Rev. Nevin Smith of Hanover, uncle of the groom, and Rev. Philip Bower, pastor of the bride. There will be organ music by Miss Ruth Shuff before the wedding and Guy Baker will sing "O Promise Me," "I Love You Truly" and "O Perfect Love," accompanied by Miss Shuff.

Miss McNair is a graduate of the Emmitsburg High school and Mr. Smith is a graduate of Walkersville high.

Immediately after the wedding, the couple will leave for a two-week trip to Florida. They will reside at the home of the groom's parents near Woodsboro, Md., where Mr. Smith will engage in farming.

All 12 cross-country championships staged by the NCAA have been held at Michigan State.

## Commies Attack Mechanical Brain

Vienna—(AP)—The development of the "mechanical brain" in the United States is designed to stop the processes of human thought. That is what the Communists say. The Romanian newspaper "Universul" recently gave this explanation of the American invention:

"The mechanical brain is an electronic machine which the American pseudo-scientific researchers want to use instead of the human brain. Now, when the Wall Street usurers are preparing to start a third world war, they do not need human thought. They stifle thought. Hatred of man—this is the supreme law of the American gangsters."

## HOBBY BECOMES EX-GI HEADACHE

Los Angeles—(AP)—Frank L. Carlson conquered wartime boredom with a hobby. Now the hobby threatens to conquer him.

A commercial artist, Carlson spent his spare time as a World War II GI decorating the envelopes he mailed home. He began with a series of cartoons to his wife and followed with rose decorations, domestic scenes and special birthday and Christmas illustrations.

Then he discovered that his hobby was a recognized one. There's even a magazine for enthusiasts. The word got around and soon Carlson was besieged by requests for decorated envelopes. Since the war he's begun an ambitious project—drawing the emblems of the squadrons of the wartime air force on letters.

He's made 100 so far, and accompanies each with an appropriate postmark. One, for example, is a picture of Uncle Sam riding a bolt of lightning with postmarks from Goodman, Wis., and Topmost, Ky.

Carlson says he now has hundreds of fans hailing for his letters and has to work nights to keep up with demands. There's no money in it, but at least he's no longer bored.

## TRAILER WIVES HAVE TO KEEP "ROLLIN' ALONG"

Morden, Manitoba—(AP)—Some 25 housewives here wash the outside of their homes as regularly as they do the kitchen floor.

They are the wives of American oil men working on the pipeline which will carry Alberta oil to the lakehead. They live in luxury-fitted trailers.

They will stay in Morden as long as their husbands are at work nearby. Then they will move on as the pipeline progresses. A few months from now they may be with another pipeline job, perhaps in Venezuela or Mexico.

Every morning in this temporary community, the "lady of the house" can be seen in T-shirt and jeans, attacking the exterior of her trailer with scrub brush.

### They Have Everything

The trailers contain bedrooms, shower, kitchenette and living rooms. Most have electric refrigerators and ultra-modern stoves.

There are no facilities for heavy washing, so the pipeline wives usually send it out to a nearby laundry.

Wives who have babies bathe them in portable bath tubs. Older children play with tricycles, wagons and toys. All go along when the trailer moves.

Mrs. L. Silvio, one of the wives, has been traveling over North America by trailer for 14 years. Her husband is a utility welder.

"Of course, I didn't have as much work until he came along," said Mrs. Silvio, glancing at her six-month-old son, Gerry. "There isn't much space, and when one thing is out of place the whole trailer looks upset."

Mrs. Silvio, whose home is Atlanta, Ga., says she hopes her husband will quit pipeline work when Gerry is old enough to go to school.

Ed Reulbach, pitching for the Cubs in 1908, shut out Brooklyn in both ends of a double-header on Sept. 26.

## Burns Hubby's Truck; Charge Is Dismissed

Columbus, Ohio—(AP)—Ladies, are you tired of seeing your husbands' old fishing clothes and other junk littering the house? In Ohio you could burn them and get away with it—legally speaking, that is.

Common Pleas Judge Joseph M. Clifford dismissed a charge of burning personal property against a wife who admitted she set her husband's truck afire. Why? Because, she said, he wouldn't take her on a trip.

The legal principle behind the dismissal, Judge Clifford explained, is that under Ohio law personal property belonging to either husband or wife also belongs to the other.

## FRANCO MAY BE TRYING TO JOIN WESTERN ALLIES

By DEWITT MACKENZIE

(AP Foreign Affairs Analyst)

Generalissimo Franco's reiteration of Spain's claim to the mighty rock of Gibraltar, which has been a British possession for nearly 250 years, invites speculation as to just what his excellency is up to.

The Spanish chief of state's pronouncement climaxed a fortnight's press and radio campaign for the return of Gib to Spain, and was in the form of an interview in the newspaper Arriba, organ of the Falange, the government party. Franco approved the motives behind the campaign, and declared Gibraltar was a ripe fruit "which one day must fall into Spain's hands." However, he said this wasn't the time to raise the issue.

All this obviously is a play to attract the attention of the outside world. Why? Is General Franco

really fishing for the return of the "Rock?"

Something Up His Sleeve?

One suspects he has something more practical up his sleeve. Of course, for centuries Spain has wanted return of Gibraltar. Still, Franco knows very well that John Bull isn't at this late date going to give up a possession which is at once the sentinel of the western Mediterranean and the historic symbol of Britain's strength.

The "Rock" sticks out of Spain's side like a plum in a Christmas pudding. It is a barren mountain of gray marble, 2½ miles long and ¾ of a mile wide at its greatest breadth. It is 1,439 feet tall at its extreme height, and rises almost sheer from the blue Mediterranean.

The "Rock" is honeycombed with forts and gun emplacements. And under its grim shadows is the naval base which is so important to maintaining the British life-line to the Far East, through the Mediterranean and the Suez canal. Britain's communications with her empire depended on Gibraltar in days not long past. And in the last two world wars this base was used not only by England but by the Allied French

and American navies.

Doesn't Expect Gibraltar

No, Franco doesn't expect to get Gibraltar. It strikes me that the real purpose of his extraordinary interview is disclosed in one brief paragraph. After saying that modern weapons make Gib no longer a fortress which can be held, he added:

"Today Spain is the territory of real value, with her numerous ports capable of sheltering her fleets and those of her allies; her large and numerous squadrons ready for modern squadrons of planes to insure safety to all at the western end of the Mediterranean. And all this is backed by an orderly nation of 28,000,000 inhabitants."

What is that but a bid to be taken into the brotherhood of western European nations in the mounting world crisis?

# CONGRESSIONAL BATTLE LOOMS ON HOOVER TALK

Washington, Dec. 21 (AP)—A new congressional battle loomed today over former President Hoover's proposals to shorten America's defense lines and arm the navy and air force "to the teeth" to defend the nation's Atlantic and Pacific frontiers.

Republican Senate Leader Wherry of Nebraska said Hoover's proposals "collide directly with those of President Truman and congress and the public must decide who is right."

Most Democratic party leaders avoided immediate comment but Senator Lehman (D-N. Y.) said: "It appears to me to be a plea for a return to complete isolationism. If we followed President Hoover's suggestion, we would find ourselves isolated and without any friends in the world."

**Uses "Defeat" Label**  
Senators of both parties agreed on one thing—that last night's broadcast proposals by the only living former president would echo in congress for some time to come.

Bluntly calling the United Nations-U. S. efforts in Korea a defeat, Mr. Hoover warned against "another Korea" in western Europe if this country feeds men and money there before the European countries organize their own defense.

Only two days before, President Truman had pledged that more American forces soon would join the combined west European defense

force now being set up under Gen. Dwight D. Eisenhower. As Hoover spoke, Secretary of State Acheson was flying back from the Brussels conference which authorized the combined non-Communist force.

Many Republicans in congress were quick to cheer Hoover's sharp dissent from the Truman-Acheson policy.

**Senatorial Backing**  
Senator Taft (R-Ohio), chairman of the senate GOP policy committee, told a reporter he agrees with "many of the general principles" Hoover stated.

Taft said some would term the speech isolationist but added that "Mr. Hoover presents very forcefully a point of view which certainly should have the immediate consideration of the congress." The Ohio senator plans a similar speech of his own.

Full approval of the Hoover ideas came from Senators Martin (R-Pa.), Watkins (R-Utah) and others who have been highly critical of the Democratic foreign policies.

Martin, a former army general, said the United States must decide where it is going to make a stand against communism instead of letting Moscow determine it. "I'm mighty tired of Joe Stalin being the quarterback for all contests," he said.

## Germans Have New Consular Offices

New York (AP)—West Germany's new consulate in mid-town New York, is among the most impressive in the city. Occupying the entire 32nd floor of the modern office building it commands a sweeping view of the city. A few blocks southeast is the new Secretariat building of the United Nations.

EXECUTIONER'S SWORD—Joan Wendell (left) and Diane Bernot weigh a 16th century Austrian executioner's sword at medieval exhibit in George Harding Museum—Chicago.

This is different from the heavily furnished prewar German consulate near the waterfront on the Battery at the southern tip of the city. The Third Reich consulate was closed by war nine years ago.

## Flattery Gets Lad His Dinners Free

New York (AP)—Paul Mosher, publicity agent for Kay Kyser, has a son who shows promise of following in his father's footsteps.

The Mosher family recently drove across the country from Los Angeles to New York. Eight-year-old Michael had pancakes for each breakfast and hamburgers for each dinner. And each time when he finished his meal he would run to the restaurant kitchen or behind the counter.

"I've eaten pancakes (or hamburgers) straight across the country," he would exclaim. "And I want you to know these are the best I've had so far."

Not once in 18 meals would the restaurants allow the Moshers to pay for Michael's food.

## BRITISH CAR EXPORTS

London (AP)—The United Kingdom exported 92,450 motor cars in the first nine months of 1950. Her principal markets were Australia, where 23,541 cars were sent; Canada, 19,441; Sweden, 7,000; the United States, 6,110; New Zealand, 4,191 and South Africa, 4,117.

Texas Christian's basketball team will face 12 conference and 12 non-conference foes this season.

## WOULD TEACH APPRECIATION OF QUARTETS

Huntsville, Ark. (AP)—Sherman Clark likes quartet singing so much he thinks there ought to be a law making courses in appreciation of quartet singing compulsory in all schools.

Clark, guiding light of most of the singing conventions in the Ozarks of Northwest Arkansas, recently launched a campaign to bring about national and state laws on the subject.

In his column "Sings" in the "Madison County Record," he "strongly urged all singers and would-be ones to join me in a mighty crusade for state and national laws making musical appreciation a required subject for all students in all public, private and parochial schools."

Professional Amateur  
The laws, he added, "must make it a felony for any male or female to throw flintlocks larger than goose eggs at any person with his mouth spread from ear to ear in an honest endeavor to produce a sound remotely resembling music."

He said his campaign for musical appreciation laws drew immediate response. "State Rep. Rolla Fitch and State Sen. John Cicer phoned to say they are getting an appropriate bill ready to push through the Arkansas legislature," he said.

## Learns Jap Bond Is Now Worthless

Rangoon — (AP)—A middle-aged Burman has for five years been trying to cash a bond representing 100,000 rupees. The bond in 1945 was the first prize in a lottery run by the Japanese.

The unhappy winner has hounded government treasury offices, banks and money-lenders trying to cash in on his winning. All told him, "Sorry, no dice."

## Germans Prefer American Smokes

Frankfurt, Germany — (AP)—The American GI has left a different taste in the Germans' mouths—one calling for U. S. cigarettes. German smokers have turned 80 per cent in

favor of American grown Virginia tobacco. Before the war almost 90 per cent of all Germans preferred the Oriental brand.

Before the war, an average 35,000 tons were yearly bought from Greece, Turkey and the Balkans, while less than 8,000 tons came from America. Latest available figures indicate that 3,600 tons of American tobacco were imported in one month compared with 1,100 tons from Greece and Turkey. (The lively pre-war trade with other Balkan countries is almost down to zero since the Communists took over there after the war.)

## Skiers Purchase Many Odd Things

Sun Valley, Idaho (AP)—People who think that all a skier buys are warm clothes and skis are dead-wrong. They buy articles which are only remotely connected with skiing, says Fred A. Picard, who started an exclusive mail-order house for skiers at the Sun Valley ski resort.

A unique item Picard sells is white chocolate. Skiers like to buy them because they are in the shape of snow-balls and because they are white—usually a favorite color of skiers. Small cameras which skiers can attach to their wrists are also big-sellers as are antimagnetic pocket watches. A special men's cologne for skiers is another of the

odd items they buy. Swiss-designed beer steins are sold internationally by the Sun Valley businessman.

Picard has designed a special wallpaper for ski huts which he expects will be the next big request. What next?

## PILGRIM GEESE

Des Moines (AP)—A flock of blue-blooded geese—their ancestors came over on the Mayflower—is owned by Louie Bretz of Elberon. The birds are called "Pilgrims" after the people who brought them to this country in 1620. They are smaller than the Emden and Toulouse breeds later imported from France and Germany. The Pilgrim breed became nearly extinct until an eastern goose fancier started breeding them.

# SOME LIMITS ON AUTHORITY OF EISENHOWER

By ELTON C. FAY  
(AP Military Affairs Reporter)

Washington, Dec. 21 (AP)—How much authority will Gen. Dwight D. Eisenhower have as supreme commander of the Western European defense force?

President Truman wrote Eisenhower on Tuesday that the North Atlantic Treaty Organization (NATO) would give him a directive shortly on his "responsibility and authority."

The 11 nations joined with the United States and NATO have agreed there is urgent need for a common land-sea-air defense against Communist aggression. They were unanimous in asking that Eisenhower head it. But it still isn't clear how much control the individual countries are willing to give him.

**Has Pretty Free Hand**

Will he, for instance, be given permission to move the forces under his command into whatever areas he thinks they are most needed?

If Eisenhower believed the danger of Soviet attack particularly acute in Norway, could he take French or Belgian army divisions from positions in or near their countries and move them to the Scandinavian peninsula? Or move Norwegian troops down to Western Germany? Or would the individual nations, nervous about defense of their own home lands, insist they remain on guard there?

For its part, the United States has given the general a pretty free hand. Mr. Truman wrote Eisenhower he has been "assigned operational command, to the extent necessary for the accomplishment of your mission, of the U. S. Army Forces in Europe; U. S. Air Forces, Europe; and the U. S. Navy Forces, Eastern Atlantic and Mediterranean."

The President added that "subject to overriding requirements of the Supreme Allied Command, Europe, the missions, routine employment, training and administration of these forces will continue to be handled

## East Berlin

East Berlin—The senior and junior choirs of Trinity Lutheran church are prepared to present a Christmas candlelight service on the morning of December 24 at the church. Miss Mae Bender, organist and choir director, will be in charge.

A visitor to town during the past week was H. F. Underkoffler, Lancaster.

Wayne Thomas, Thomasville R. 1, a graduate of the local high school, will be heard next Sunday evening.

through command channels heretofore existing."

**Some Exceptions**

What this latter apparently meant was that the American forces would continue to carry on their daily jobs under their present chiefs—Gen. Thomas T. Handy, head of the Army's command in Europe; Lt. Gen. Lauris Norstad, commander of American Air Forces in Europe; and Vice-Admiral R. B. Carney, commanding naval forces.

But there were some apparent or implied exceptions.

Although Mr. Truman specified Eisenhower's operational command would include U. S. Air Forces in Europe, this didn't appear to mean we would have control of the USAF's strategic air force except for whatever B-29 or B-50 groups of medium bombers might be operating at any one time from bases in Britain. (About three such medium bomber groups usually are in England on rotational training missions.)

**May Command Germans**

Thus it seemed that control of the strategic air force, which some time ago was placed under the overall guidance of the joint chiefs of staff, would remain under that control. If, in event of war or for purposes of a show of strength, it was found necessary to send ultra-long range B-36s to Europe, the decision would be made by the joint chiefs at Washington.

After devoting World War II to fighting Germans, Eisenhower now may find German units serving under him. Among the 1,000,000-man combined force—if the Germans themselves agree—will be about 25 West German ground combat units of 6,000 men each and probably some small units of German tactical aircraft to support the ground troops.

"MINUTE MEN"  
IDEA GETS COOL  
RECEPTION HERE

Harrisburg, Dec. 21 (AP) — A proposal to establish a "minute man" Civil Defense Corps in America, composed of veterans, received a cold reception today in Pennsylvania.

Col. Alton C. Miller, state civil defense director, said that even through the proposal is "well intentioned" similar plans have been used in the past "to overthrow governments." The "minute man" home defense plan was proposed by a Greenville, O., Veterans of Foreign Wars, post.

Under the plan, the ranks of the "minute-men" — named after the volunteers who stopped the British in the early days of the Revolution — would be open to any veteran.

Francis Used It

Any veteran, upon joining a "minute man" corps, could be called to duty only for specific purposes and would be barred for use on strike duty, or similar civilian guard jobs.

Arms would be provided by shipping basic infantry weapons from armed forces arsenals to local armories.

Miller said that while the framers of the plan "are to be commended for their interest in providing home defense means, the same idea has been used by Franco in Spain and Hitler in Germany to gain control of the people."

"The question is," he said, "How

would you screen all the minute members to determine if they meet loyalty requirements?"

Cites Chief Needs

"While they mean well," he said, "I am thinking of security. The plan has been used to overthrow governments." He said the "minute man" idea represents what he termed a "panic decision."

"They think by use of arms they can protect the nation," he said, but added: "That isn't what we need. I think we need more firemen, groups to clean streets in event of air attacks and first aid squads."

Miller said however that a "minute man" plan might be a good idea if it could be turned into something similar to an auxiliary police force plan.

"At any rate," he added, "we should not pour cold water on the enthusiasm of the Ohio VFW post, rather we should divert it into proper channels."

Michigan appeared in both the 1902 and 1948 Rose Bowl games and won both by the same score, 49-0.

Alabama has appeared in all four major bowl games — The Rose, Sugar, Cotton and Orange.

Guns Wanted, Not  
Pies And Noodles

Pasadena, Calif. (AP) — A typographical error flooded the local Army Ordnance office with calls from makers of blueberry pies, apple sauce, egg noodles, underwear, vegetable peeling devices and typewriter ribbons.

Capt. Edward N. Dean had to explain to each caller that a Department of Commerce bulletin which advised prospective Army contractors to contact the nearest ordnance office was in error. The ordnance office, said the captain wearily, is interested only in ordnance supplies.

## HOOVER URGES FORTIFICATION OF AMERICAS

New York, Dec. 21 (AP) — Former President Herbert Hoover urged the nation last night to concentrate on fortifying the Western Hemisphere as a "Gibraltar."

He called on his fellow-countrymen to "arm to the teeth" to hold the Atlantic and Pacific oceans, with the island outposts of Britain, Japan, Formosa and Philippines.

Mr. Hoover, speaking on radio and television, said it would be "sheer folly" to engage in land war with Communist hordes in Asia or the continent of Europe.

He urged the United States to

"arm our air and naval forces to the teeth" to defend the frontiers he laid out.

### Capitals Unreachable

Mr. Hoover said the Communists could never break through American sea and air power to invade the Western Hemisphere. "They can no more reach Washington in force than we can reach Moscow," he declared.

At another point, he expressed the opinion that the Atomic bomb is "a far less dominant weapon than it was once thought to be."

The only living ex-president, making one of the most important addresses of his long public career, said "it is clear that the United Nations are defeated in Korea."

### View On West Europe

It would be "inviting another Korea," he declared, to send more troops or money to Western European nations before they had armed

themselves as a "sure dam against the Red flood."

Defense of Western Continental Europe rests primarily on the European nations themselves, the 76-year-old former chief executive told his audiences across the nation.

"We have little need for large armies unless we are going to Europe or China," he said. Land war with the Communist masses in Asia or Western Europe "would be the graveyard of millions of American boys and would end in the exhaustion of this Gibraltar of western civilization."

Mr. Hoover said Western European nations should arm themselves with combat divisions of "huge numbers" before the United States lands "another man or another dollar on their shores."

His demand for a new foreign

arms policy came one day after President Truman named Gen. Dwight D. Eisenhower as supreme commander of Western European forces and said additional U. S. troops would be sent there as soon as possible.

Mr. Hoover said his suggested foreign policy would make it possible for this country to carry on indefinitely, even if the Communists attacked its defense rim. Meanwhile, he added, Americans could hope that other non-Communist peoples would rise in their own defense, and that Communism would break down of its own weaknesses.

Adding to his prepared text, Mr. Hoover said "I devoutly hope a maximum of cooperation can be established between the British Commonwealth and ourselves."

He urged that the United States

## Littlestown

Littlestown—The Wintrobe's Garage annual Christmas party with Mr. and Mrs. Clinton R. Wintrobe giving a turkey banquet for the employees and their families at Basehear's restaurant on Tuesday evening was enjoyed by all. Gifts were exchanged. M. M. Mountjoy, Hanover, Buick district manager, spoke

free Japan and help her rear; stiffen the defenses of Formosa and the Philippines; reduce non-military expenses, balance the budget and roll back inflation; aid other nations that show "spirit and strength" in defending themselves against communism; and engage in no appeasement anywhere—"no more Tehrans and Yaltas."

"Help Wanted, Apply to Bible" was the topic of discussion at the Sunday evening meeting of the Christian Endeavor society of Christ Reformed church. The meeting opened with a song service with Mrs.

briefly to the group. Mr. Wintrobe thanked the employees for helping to make possible a successful year. After the banquet Mr. and Mrs. Wintrobe treated the group to a movie at the Towne theater. Those present were Mr. and Mrs. Clinton R. Wintrobe and daughter, Joan; Mr. and Mrs. M. M. Mountjoy of Hanover, Mr. and Mrs. John L. Wintrobe, Mr. and Mrs. Walter Yingling, Mr. and Mrs. C. Edgar Pfeiffer, Mr. and Mrs. Milton Morehead, Mr. and Mrs. Richard Staley, Mr. and Mrs. Emerson Muller and Mr. and Mrs. Edward Geiman, all of or near Littlestown.

Funeral services for Joseph H. Bucher, 89, who died at his home on East King street Monday evening at 7:45 o'clock following a period of declining health, were held today at 2 p.m. from the J. W. Little and Son funeral home, Littlestown. The services were conducted by his pastor, the Rev. Kenneth D. James, pastor

of St. John's Lutheran church. Interment was in Mt. Carmel cemetery, Littlestown. Pall bearers were his grandsons; Mahlon Bucher, Clyde Bucher, Clark Bucher, Jack Bucher, Thomas Bucher and Clifton Apple.
